Present levels of academic achievement and functional performance

Reading: On the DIBELS 8 Oral Reading Fluency measure administered 08/29/2025, Jordan read 22 words per minute on a first-grade passage with 86% accuracy. Jordan decodes consonant-vowel-consonant words and most high-frequency words but does not yet apply vowel-team or silent-e patterns. The end-of-second-grade benchmark on this measure is 87 words per minute. Listening comprehension is at grade level; Jordan answers literal and inferential questions about text read aloud with 90% accuracy.

Parent concerns: The parent states that the reading goal has not changed since the 03/11/2024 IEP and that Jordan has made little measurable progress toward it. The parent requests a revised goal and more intensive reading instruction.

Annual goals

Goal 1 - Reading Fluency. By 09/07/2026, Jordan will increase oral reading fluency to 60 words per minute with 90% accuracy on a first-grade passage, as measured by DIBELS 8 ORF probes administered at the end of each reporting period. Baseline (08/29/2025): 22 words per minute. Note: goal carried forward from the 03/11/2024 IEP with the baseline updated.

Goal 2 - Communication. By 09/07/2026, Jordan will initiate a conversational exchange with a peer and maintain it for three turns in 4 of 5 opportunities, as measured by SLP data collection. Baseline: 1-2 turns with adult prompting.
